

## Property Toolbox

5 August 2010

Property Toolbox has committed to the journey of becoming a responsible and sustainable business by registering on the Good Business Register.

The Good Business Register has been created to assist businesses of all sizes to communicate their sustainability credentials in the supply chain and to key stakeholders including customers, investors, employees and the community.

Our business values responsible business practices. We care about: the environment and use natural light in our office, turn off equipment when it is not being used, recycle and have installed a water tank and solar panels to reduce our business carbon footprint.

But best of all, because all of our content is online and we don't print books or other documents, we save hundreds of trees every year.

### About us

Property Toolbox is your one stop resource for property investment courses and financial education. Our mission is to provide affordable and comprehensive online training courses tailoring them to first time buyers and property investors.

---

## The Good Business Register is built upon 5 Principles of Responsible Business Practice.

1. **FINANCIAL SUSTAINABILITY** - Operate our business in an economically sustainable manner
  2. **WORKPLACE** - Provide a workplace that supports worker and employee wellbeing and inclusiveness
  3. **SUPPLY CHAIN** - Promote responsible business practices throughout our supply chain
  4. **STAKEHOLDERS & COMMUNITY** - Actively engage with our community and other stakeholders
  5. **ENVIRONMENT** - Minimise the impact of our business activities on the environment
- 

The National Responsible Business Practice Project is funded by the Federal Government, through Treasury to enable St James Ethics Centre to engage Australian businesses in identifying and adopting more responsible business practices.
